To Whom It May Concern:

Dr. Ariel Ortiz is an expert consultant for INAMED Health. We have employed him in this capacity since November of 2000. His duties in this regard include acting as Course Director for our LAP-BAND® System Training Workshops, and serving as an proctor, assisting and supervising surgeons in the placement of the LAP-BAND in the final stage of a rigorous training curriculum.

I should emphasize to you that only the most skilled bariatric and laparoscopic surgeons are even considered eligible for training in this procedure. As an instructor for these surgeons, Dr. Ortiz is, by necessity, an expert among experts. He is an invaluable asset to our company, and a leading and internationally known surgeon in his field

Please contact me with any further questions about Dr. Ortiz.
